GPT-2 IOI: regret of the single-map code vs n
valid subspace, layer 11, n = 1024
valid subspace, layer 11, n = 32768
coupling map, layer 11 (trained), n = 1024
coupling map, layer 11 (trained), n = 32768
untrained twin, subspace, layer 11, n = 1024
untrained twin, subspace, layer 11, n = 32768
manufactured alignment (twin, layer 10), n = 1024
manufactured alignment (twin, layer 10), n = 32768
frame parameters (12288)
regret of the MAP code (nats)
